Therefore, the District Manager is requiring that all public land users, including permittees and local, state, or federal government agents conducting administrative activities, use certified noxious weed-free forage on BLM-administered public lands in the Worland District, Wyoming. In addition to certified weed-free forage, the use of

any pelletized feeds and grain products is still allowed.

Notice of Public Hearing and Call for Public Comment on Fair Market Value and Maximum Economic Recovery; Coal Lease Application UTU-74804

AGENCY: Bureau of Land Management, Utah

SUMMARY: The Bureau of Land Management (BLM) announces a public hearing on the Environmental Assessment (EA) for a proposed coal lease sale and requests public comment on the fair market value of certain coal resources it proposes to offer for

competitive lease sale. The lands included in coal lease application UTU-74804 are located in Carbon County, Utah, approximately 15 miles northwest of Price, Utah on public land and are described as follows:

- T. 13 S., R. 8 E., SLM
 - Section 6: SE $\frac{1}{4}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$;
 - Section 7: Lots 1-3, E $\frac{1}{2}$, E $\frac{1}{2}$ W $\frac{1}{2}$;
 - Section 8: NW $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$;
 - Section 17: N $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$;
 - Section 18: NE $\frac{1}{4}$ NE $\frac{1}{4}$.
- Containing 1,288.49 acres.

Two potentially minable coal beds, the Castlegate "A" and Hiawatha seams are found in this tract. Because of rock splits in the Castlegate "A" bed, essentially all of the potential reserves are in the Hiawatha bed. The minable portions of the seams in this area are from 7 to 8.5 feet in thickness. This tract contains an estimated 6-7 million tons of recoverable high-volatile B bituminous coal. The range of coal quality in the seams on an as received basis is as follows: 11,800-12,000 BTU/lb., 0.4-0.5 percent sulfur, 6-7 percent ash. The public is invited to the hearing to make public or written comments on the EA concerning the proposal to lease the Beaver Creek Tract, and also to submit comments on the fair market value (FMV) and the maximum economic recovery (MER) of the tract.

p.m.) Monday through Friday. Comments on fair market value and maximum economic recovery should be sent to the Bureau of Land Management and should address, but not necessarily be limited to, the following information:

1. The quality and quantity of the coal resource.

2. The mining method or methods which would achieve maximum economic recovery of the coal, including specifications of seams to be mined and the most desirable timing and rate of production.

3. The quantity of coal.

4. If this tract is likely to be mined as part of an existing mine and therefore be evaluated on a realistic incremental basis, in relation to the existing mine to which it has the greatest value.

5. If this tract should be evaluated as part of a potential larger mining unit and evaluated as a portion of a new potential mine (i.e., a tract which does not in itself form a logical mining unit).

6. The configuration of any larger mining unit of which the tract may be a part.

7. Restrictions to mining which may affect coal recovery.

8. The price that the mined coal would bring when sold.

9. Costs, including mining and reclamation, of producing the coal and the time of production.

10. The percentage rate at which anticipated income streams should be discounted, either in the absence of inflation or with inflation, in which case the anticipated rate of inflation should be given.

11. Depreciation and other tax accounting factors.

12. The value of any surface estate where held privately.

13. Documented information on the terms and conditions of recent and similar coal land transactions in the lease sale area.

14. Any comparable sales data of similar coal lands.

Coal quantities and the FMV of the coal developed by BLM may or may not change as a result of comments received from the public and changes in market conditions between now and when final economic evaluations are completed.

DATES: The public hearing will be held at the BLM Price Office Conference Room, 125 South 600 West, Price Utah, at 7:00 p.m. on October 9, 1997.

Comments on fair market value and maximum economic recovery must be received at the Bureau of Land Management, Utah State Office, by October 20, 1997.
