Re: Deficiencies in Blasting Plan, Horizon Mining, LLC, Horizon Mine, ACT/007/020-98E, File #3, Carbon County, Utah

Dear Ms. Dragoo:

The Division has completed a review of the information your office provided for updating the Mining and Reclamation Plan at the Horizon Mine on explosives. The amendment is approvable but additional information is required in order to make it complete. The following must be provided:

- The MRP text must contain language on the storage of explosives.
- The surface facilities map must show where the cap and powder magazines will be stored within the disturbed permitted area.

For further information, please review the enclosed technical memo, which outlines the requirements. You should submit a complete and accurate application for permit change to address the requirements by no later than November 19, 1998

If you have any questions, please call.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
