Subject: Division Order 99B and NOV 99-26-2-1
 Horizon Mining, LLC, Carbon County, Utah
 ACT/007/020

To Whom It May Concern:

Attached please find three copies of revisions to the Horizon Mine M&RP. These revisions are submitted in response to a division order and notice of violation. Three chapters of the M&RP have been revised to address the following issues:

Chapter 2, Legal, Financial, Compliance and Related Information

- Address change for the Resident Agent,
- Lease UTU 74804 issued,
- Compliance information update,
- Environmental Assessment for Lease UTU 74804 added.

Chapter 3, Operation and Reclamation Plan

- Text and maps are consistent in Chapter 3 pertaining to the coal conveyance system, facilities, coal storage area(s), coal mine waste handling and storage, snow storage area(s) and haulage area(s),
- Reclamation plans covering above listed facilities,
- Location and volume of temporary coal waste are shown on Plate 3-1 and discussed in Sections 3.2.3 and 3.3,
- The terms coal, rock coal, high ash coal, waste rock and coal waste material should be replaced in the text with terms defined by the R645 regulations,
- MSHA (Section 3.2.3.600) and ASTM (Section 3.3) references to coal and storage of coal mine waste have been included in the text,
- Air Quality personnel inspected the Horizon Mine site on June 14, 1999 (Jon Black and Jay Morris). During a phone conversation on June 17 with Jon Black, he made the following comment "nothing of concern was noted on the inspection, however once the mine is operating again, production quantities may need to be revised in

the air quality permit". When mining resumes at Horizon if needed the permit will be revised to include any additional equipment or coal production quantities.

Chapter 7, Hydrology

Plate 7-4 was revised, therefore the hydrology text also needed revision. Data pertaining to the NOV is included in Appendix 7-2. Due to the revision of Plate 7-4 the calculations in Appendix 7-4 had to be revised.
