Utah Coal Program
 Utah Division of Oil, Gas and Mining
 1594 West North Temple, Suite 1210
 Salt Lake City, UT 84114-5801

ACT 10071020 #2
 Copy Daron

DO99B

Under the direction of David B. Miller of Lodestar Energy, Inc, we are submitting revisions to Chapter 3 of the Horizon Mine permit. The deficiencies listed in Division Order 99B have been addressed in Chapter 3, on Plate 3-1 and in Appendix 3-10. Appendix 3-7 contains the bond estimate which was prepared by Wayne Western and contains the justification for the current bond posted by Lodestar Energy upon its purchase of the Horizon Mine. Lodestar is aware that the bond is lacking in specific site information, the intent is to provide some of the information in this submittal, as requested and additional information in association with the mid-term review deficiencies.

The reclamation of the ground surface for the disturbed area is not effected by the information provided in this division order.

Air Quality inspection personnel have visited the site and are currently not concerned with air quality issues. Lodestar has started the process of updating the currently approved air quality permit. This effort is a long process and approval is not likely to be given until the year 2000.

Coal descriptive terms have been deleted from the text and replaced where appropriate, with terms defined or used in the UDOGM regulations.

Lodestar intends to permit a disposal area for coal mine waste in the near future, however should materials from the cleaning of sediment controls need to be stored prior to the approval of a disposal area and amendment will be generated proposing a storage location.

If you have any questions please contact me at (435) 472-0884.

Sincerely yours,

Vicky S. Miller
 EarthFax Engineering, Inc.
 Permitting Coordinator
