Hello Kit,

After our telephone conversation this morning I looked again at the disc that was sent on 3/31/04 and found that it does contain a more complete set of Plates. So you could add these plates to a disc with the Chapters. Please have each chapter begin with a table of contents and have all the tables on the pages noted in the table of contents. Ideally, the Appendices would be scanned into the electronic MRP as well.

Thanks  
Priscilla.
