Kit,

As we discussed earlier today, there is a group of samples hung up in the Pipeline right now. Below I've identified the actions required to get these cleaned up.

1) The following sample needs your OK so I can get it moved into the DB. You should be able to OK this as there is not a duplicate in the DB already.

**Site.....Date.....LabID**  
HZ-95-1.....11/18/2008.....2008118

2) The following samples should be ready for your approval to move into the DB. Note that these samples had previously been uploaded, and I have deleted the previously uploaded records:

**Site.....Date.....LabID**

UTG040019-002.....7/30/08.....5980048201  
UTG040019-002.....8/27/08.....5980055101

3) I have deleted the following samples from the Pipeline, as they are identical to records already in the DB (just FYI, no action is required from you):

**Site.....Date.....LabID**  
SP-9.....11/18/08.....78208760012  
HZ-95-3.....11/18/08.....20081118  
HZ-95-3.....6/30/09.....20090630

I have attached an updated version of the spreadsheet I sent you earlier today which now includes columns identifying actions required by the Operator and OGM. Thanks for helping to get this cleaned up. Let me know if you have any questions and kindly notify me once you've completed your required actions.

Kevin
