Price, Utah 84501

Subject: Additional Time to Submit Beaver Creek Protection and Enhancement Plan and Raptor Survey Requirements, Task ID #3587, Hidden Splendor Resources Inc., Horizon Mine, C/007/0020

Dear Mr. Pappas:

The Division received your request for additional time to complete the above referenced task. We understand how a substantial fault zone can alter your mining projections; however, we are most interested in the areas where you have already mined. You should be able to provide a map with all of the information we have requested with the exception of the future projections. We will allow you an additional two weeks or until September 30, 2010 to provide this information. A mine map with the future projections on it will then need to be submitted at some later date as soon as it becomes available.

Please submit the entire application with the exception of the mining projections, after addressing the deficiencies identified. If you have any questions please contact Kevin Lundmark at (801)538-5352 or Daron Haddock at (801)538-5325.

Sincerely,

Daron Haddock
Permit Supervisor
