2. Signs and Markers

The mine identification sign is located along the side of the county road leading to the mine site. The sign is positioned so that it indicates entrance into the permit area. The sign contains the required information to satisfy the regulations.

4.a Hydrologic Balance: Diversions

A large rock was observed in the diversion ditch adjacent to the bath house. The rock needs to be removed from the diversion. It appears that the rock rolled of the hill side above the diversion.

20. Air Quality Permit

Water sprays were in use during the inspection to keep the fugitive dust within compliant parameters.
