Subject: Horizon Mine P-Seal Replacement

To: Karl Houskeeper &lt;KARLHOUSKEEPER@utah.gov&gt;

Karl, Vaughn Hughes from the BLM will be going to the Horizon Mine on Tuesday, February 5, 2013 to inspect the area that will be sealed as required by the MSHA citation to ensure that no harmful or hazardous materials will be left behind the seals. This area is referred to as the "P-Seal" replacement area. A CERCLA document will also be given to Vaughn as required. The sealing of this area is the last step for the MSHA required ventilation change. The projected date that seal construction is supposed to begin is February 11, 2013, however, as you are well aware, this is all dependent on receiving the required funding, and is subject to change without notice.

Please feel free to call if you have any questions or comments.

Thanks,

Kit

Hi Karl, Thanks for forwarding the message from Kit. I am still listing Horizon as Active. It sounds like they are slowly getting back on their feet, although it still sounds pretty shaky. Let us know if anything changes. Daron
