IMPORTANT – READ CAREFULLY

Pursuant to the Utah Coal Mined Land Reclamation Act, Utah Code Ann. § 40-10-1 et. seq. (Act), the undersigned authorized representative of the Division of Oil, Gas, and Mining (DOGM) has conducted an inspection and found that a Notice of Violation or Cessation Order must be issued.

This order shall remain in effect until it is modified, terminated or vacated by written notice of an authorized representative of DOGM.

1. PENALTIES.

Proposed assessment. DOGM assesses fines based upon a proposed recommendation by an assessment officer. If there is additional information you wish DOGM to consider regarding the cessation order and proposed fine, please submit that to DOGM within *15 days of the date this notice or order is served on you or your agent*. Such information will be used by the assessment officer in determining facts surrounding the violation(s) and amount of penalty. Once DOGM has determined the proper penalty, it will serve the proposed assessment on you or your agent, no later than 30 days of the issuance of this notice or order. See Utah Admin. Code R645-401-600 et. seq.

The penalty will be final unless you or your agent file, within 15 days of receipt of the proposed assessment, a written request for an informal hearing before the assessment officer.

Assessment. For each violation included in this notice, a penalty of up to \$5,000 may be assessed for each separate day the violation continues.

If you fail to abate any violation within the time set for abatement or for meeting any interim step, you will be assessed an additional minimum penalty of \$750 for each day of continuing violation beyond the time set for abatement. You will be issued a Cessation Order requiring cessation of surface coal mining operations or the portion of the operations relevant to the violation.

2. INFORMAL PUBLIC HEARING.

On the reverse side of this page, an authorized representative has made a finding as to whether or not this notice requires cessation of mining. If this order or notice requires cessation of mining, expressly or in practical effect, you may request that an informal public hearing be held at or near the mine site. If you wish an informal public hearing be held, please contact an authorized representative from DOGM. See Utah Admin. Code R645-400-350 et seq. Once an informal public hearing is scheduled, you will be notified of the date, time, and location of the hearing.

If this notice requires cessation of mining, it will expire within 30 days from the date you are notified unless an informal public hearing is held or waived, or the condition, practice, or violation is abated within the 30-day period.

3. FORMAL REVIEW AND TEMPORARY RELIEF.

You may appeal this notice or order to the Board of Oil, Gas, and Mining by submitting an application for hearing within 30 days of receipt of this notice or order. See Utah Admin. Code R645-300-164.300. Please submit the application for hearing to:

Secretary
Board of Oil, Gas, and Mining
1594 West North Temple, Suite 1210
PO Box 145801
Salt Lake City, Utah 84114-5801

If applying for a formal board hearing, you may submit with your petition for review a request for “*temporary relief*” from this notice. Procedures for obtaining a formal board hearing are contained in the Board’s Rules of Practice and Procedure and in Utah Admin. Code R645-401-800 et. seq.

4. EFFECT ON PERMIT.

The permit may be suspended or revoked if it is determined that a pattern of violations of the Act, regulations or permit conditions exists, and that the violations were caused by an unwarranted or willful failure to comply.

For further information, consult Utah Code Ann. § 40-10-20 through 40-10-23 and Utah Admin. Code R645-400-300 et. seq. and R645-401 et. seq., or contact the Division of Oil, Gas, and Mining at (801) 538-5340.

3. Topsoil

Excelsior logs along the toe of the topsoil piles, on the North side of the facility, are in need of maintenance. See pictures 18 and 19.

4.a Hydrologic Balance: Diversions

Undisturbed drainage culverts UC-2 (picture 20) and UC-3 (pictures 11 and 12) are both partially blocked by debris and waste. The outlet of UC-1 (picture 6) is almost completely plugged and should be cleaned immediately. Culvert DC-1 (picture 15) is also partially blocked. All drainage ditches throughout the facility need maintenance, but currently DD-6 (picture 1) and DD-1 (pictures 21, 22, and 23) do not have the ability to effectively transmit water. See NOV 10140.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

As indicated in plate 7-6 of the approved MRP, the plan indicates that there should be a 2" diameter decant pipe at elevation 7570.4'. This pipe is not visible (picture 7). A new sediment marker was installed in the pond (picture 5), the pond should be cleaned out as soon as possible. Inlet from ditch DD-6 (pictures 2, 3, and 10) is severely eroded and needs to be fixed. See NOV 10141.

6. Disposal of Excess Spoil, Fills, Benches

Slopes above the pond and above ditches DD-1H and DD-1I (pictures 25, 26, and 27) are eroding and should be maintained.

8. Noncoal Waste

Waste is located throughout the site and should be cleaned up. One of the oil barrels have fallen into Jewkes Creek and sits at the inlet of UC-3 (picture 12). It is unclear if this barrel is empty. Other waste located throughout the site is documented in picture 16 and almost all of the other attached pictures. See NOV 10142.
