Inspection Memo  
to Coal File:

RE: Blazon Company  
Blazon #1 Mine  
Carbon County, Utah  
ACT/007/021

A brief visit was made to the site of this proposed small underground coal mine on December 7, 1979 by Jim Smith of the Division and Gary Fritz and Dennis Winterringer of the Office of Surface Mining, Denver. They were taken to the mine site, via snowmobiles, by Mr. Jack Otani, the land owner, and his son Randy. Approximately 18 inches of snow prohibited normal vehicular access over the narrow existing road in the canyon. Location of the proposed portals and associated surface facilities was observed and photographed.

JAMES W. SMITH, JR. *JWS*  
RECLAMATION SOILS SPECIALIST

JWS/te
