Salt Lake City, Utah 84116

Dear Mr. Daniels,

In reference to your informational letter of January 15, 1980 and relative to the fish, wildlife, and habitat information, we are making formal application to request consultation with the regulatory authority.

Your letter causes us great concern relative to our present permit application processing. As you are aware, we submitted as part of the Notice of Intent, a study provided by Mr. Larry Dalton of the Price, Utah office.

Your letter would indicate that the above submittal has no validity with the regulating authority which would cause additional complications with the permitting process involving the Blazon No. 1 Mine.

At our last meeting you indicated that additional information regarding vegetation was the only item of concern.

Sincerely,

Joseph A. Harvey, President  
Blazon Company
