Memo to
Coal File:RE: Blazon #1 Mine
Blazon Mining Company
Carbon County, Utah
ACT/007/021

On June 26, 1980 Mr. Joseph Harvey of Blazon Mining Company contacted the Division of Oil, Gas and Mining and talked with Thomas Suchoski, Engineering Geologist, regarding the installation of culverts in Little Snyder and Mud Canyons. Due to unforeseen circumstances Mr. Harvey was unable to construct the access road to the portal pad in a manner which was shown and depicted on the plans.

Mr. Harvey requested approval from the Division to extend the culverts in Mud Creek and Little Snyder Canyons so that additional area could be included in allowing the access road to the portal pad to be constructed. Mr. Suchoski indicated that there would be no problem in this and as long as the culverts installed were the same diameter as those already approved for the Canyons the Division would approve such an extension.

THOMAS SUCHOSKI
ENGINEERING GEOLOGIST
