Mr. Joseph A. Harvey  
Blazon Company  
Box 327  
Ferron, Utah 84523

Dear Mr. Harvey:

Mr. Ron Daniels has asked me to respond to your letter to him of January 17, 1980. It is correct that additional information regarding vegetation was requested. This information is required on the basis of an Interim Program review under the Utah Mined Land Reclamation Act of 1975. To reiterate, the vegetation information which is needed to complete your application is the percent ground cover of the existing vegetation at the site.

Since your application was made for an Interim Program permit, the wildlife section which was submitted has not been reviewed. The Division will however, as you have requested, proceed with the consultation process for the required fish and wildlife information.

In regards to the overall status of your application for an Interim permit, the Division agrees with the conceptual design on the sedimentation and drainage control facilities for the Blazon No. 1 Mine. The staff awaits submittal of the final design plans so review can continue.

Sincerely,

MARY ANN WRIGHT  
RECLAMATION BIOLOGIST
