Memo to Coal File:

RE: Blazon #1 Mine
Blazon Company
ACT/007/021
Carbon County, Utah

On February 17, 1981, Division representatives Sandy Pruitt and Tom Portle performed a partial inspection of the Blazon #1 Mine. Joseph Harvey, chief mining engineer for Blazon was not on-site at the time of the inspection.

New structures and development activity were observed. A warehouse and power substation had been constructed since the time of the last inspection. Materials were present at the site for conveyor construction at this time.

It should be determined during the next inspection if the topsoil stockpile has been seeded and mulched.

No violations were warranted at this time.
