RE: August 5, 1981,
Inspection

Dear Mr. Harvey:

This letter is in response to the August 5, 1981, inspection by Jean Doutré and Sandy Pruitt. Enclosed is a Notice of Violation issued for failure to protect stockpiled topsoil as required under UMC 817.23(b) and failure to meet requirements of Stipulation 5-81-10 of the waste disposal approval dated May 22, 1981. If you have any questions or concerns regarding the requirements of this notice, please contact either Jean Doutré or myself before the specified abatement deadline of September 6, 1981. Also, you are hereby informed of an August 21 deadline for the posting of perimeter and buffer zone markers as required under UMC 817.11.

I have informed Mary Ann Wright, administrator abandoned mine reclamation for DOGM, of your plans for developing a waste disposal site at the old Clear Creek Mine strip pit. She has forwarded the enclosed copy of 1978 plans for reclamation of the pit. Also, enclosed is a notice in the Federal Register dated July 20, 1981, of OSM's proposed amendments adding the option for use of excess spoil in backfilling previously mined benches. If you have any questions or concerns regarding your submittal of waste disposal plans, please contact either Mary Ann Wright or myself.

Sincerely,

SANDY PRUITT
RECLAMATION OFFICER
