Re: North American Equities NV
Permit Application DOC Meeting

DIVISION OF
OIL, GAS & MINING

Dear Mr. Smith:

We appreciated the opportunity to meet with yourself and Susan Linner on Friday afternoon, February 3, 1984 at the Division of Oil, Gas, and Mining Division Offices in Salt Lake City, Utah. Present at the meeting were the following individuals:

- James W. Smith, Jr. - DOGM
- Susan Linner - DOGM
- Alan Smith - North American Equities NV
- Eldon Strid - ACZ INC.
- Mike Glen - ACZ INC.
- David Sturges - Delany and Balcomb

On Friday morning prior to our meeting, North American Equities NV and Division representatives had conducted a technical session with the express purpose of completing an item by item review of concerns and problems listed in the Determination of Completeness Review (DOC) dated January 25, 1984. This session proved useful in further defining Division information requirements for inclusion to the permit application.

The purpose of our afternoon meeting was to ascertain the Division's position on the issues brought up in the January 25, 1984 cover letter for the DOC. These issues include:

- Permit Application Package (PAP)
- Timing for Submittal of Requested Information

Permit Application Package

North American Equities NV plans to integrate all previous permit submittals into a single, consistent format document intended to satisfy the Division requirement for a PAP. Development of a PAP will

require more time than is available for keeping Division permitting schedules mandated by OSM. Therefore, North American Equities NV will prepare information responding to the DOC requests and will format this information into the Apparent Completeness Review (ACR) document, previously submitted October 7, 1983, using a revised page number system. Before final permit approval, all permit information submitted prior to October 7, 1983 will be compiled and formatted consistently with the DOC/ACR submittal to form a complete PAP.

Timing for Submittal of Requested Information

Having completed the technical session review of DOC concerns, North American Equities NV can answer each of the concerns and make a submittal to the Division of requested information no later than March 1, 1984.

North American Equities NV appreciated this meeting and will continue to work diligently toward providing requested information on a timely basis. We would also appreciate your written response or comments based on our subject meeting if your interpretation or impressions differ from those in this letter.

If you have any questions, please do not hesitate to contact either Eldon Strid or myself.

Sincerely,

ACZ INC.

R. Michael Glen
