RE: Determination of Completeness
North American Equities, N. V.
Blazon #1 Mine
ACT/007/021, Folder No. 2
Carbon County, Utah

Dear (Name):

The Utah Division of Oil, Gas and Mining (Division) has completed its review of the Permit Application Package (PAP) and amendments submitted by North American Equities, N. V., for the Blazon #1 Mine. This Division has determined the plan to be apparently complete. In compliance with Section UMC 786.11(b) and (c) of the Utah Coal Mining Reclamation Act (UMC, Section 40-10-1 et seq.), notice is hereby given to all appropriate agencies having jurisdiction over or an interest in the area of the operations that a complete plan is available for public review for this operation.

The Blazon #1 Mine permit area begins at the end of State Highway 96 just south of the town of Clear Creek, Utah. The permit area is located on the "Scofield" 7.5 minute U. S. Geological Survey quadrangle map.

The Blazon #1 Mine produced coal from March 1981 until February 1982, and has been in suspended operations since that time. The surface disturbance is currently under seven (7) acres, with no new disturbance planned during the five year permit term.

The following areas comprise the mine permit area:

Township 14 South, Range 7 East, Salt Lake Baseline and Meridian:
Section 4; portions.

The Division of Oil, Gas and Mining will now prepare a Technical Analysis (TA) to determine whether the plan meets all the criteria of the Permanent Program Performance Standards according to the requirements of UCA, Section 40-10-1 et seq.
