Dear Mr. Prince:

Re: Blazon Mine Reclamation, North American Equities, Blazon #1 Mine, ACT/007/021, Folder #2, Carbon County, Utah

With regard to the request for an extension in time for the submittal of designs for the Little Snyder Drainage at the Blazon Mine, the Division has granted an extension in time for the submittal to 5:00 p.m. on Friday, July 1, 1988. This letter is a follow up to verbal approval granted by Lowell Braxton on June 29, 1988.

It should be stressed by the Division that this extension in time is only so that North American Equities can submit a more complete and accurate design for approval and that this extension in no way diminishes the Division concern for achieving complete reclamation of the site within this year.

This letter is also to confirm that you have been designated as the agent to contact for all matters relating to permitting and inspection of the Blazon #1 Mine. All correspondence regarding the Blazon #1 Mine will be forwarded directly to your office. Should this change, please notify the Division promptly.

Thank you for your cooperation in this matter,

Sincerely,

A handwritten signature in cursive script that reads "Lowell P. Braxton".

Lowell P. Braxton
Administrator
Mineral Resource Development and
Reclamation Program
