Subject: Mitigation Plan for Portal Slope Soil Erosion at the  
Blazon No. 1 Mine

Dear Ms. Linner:

In accordance with your letter dated May 5, 1989 to Mr. William B. Prince of Holme Roberts & Owen, enclosed is the Mitigation Plan for Portal Slope Soil Erosion at the Blazon No. 1 Mine.

This plan was developed based on conversations with your staff during the May 12, 1989 site inspection at the Blazon Mine. In addition, I reviewed this plan with Mr. Randy Harden in a telephone conversation on May 16, 1989.

It is anticipated that the slope stabilization work will be started on May 20, 1989. We would appreciate an expeditious review of the mitigation plan so your comments may be incorporated prior to construction.

Please contact us if you need additional information.

Sincerely,

Carol A. Bjork, P.E.  
Civil Engineer
