3. Narrative:

(Brief explanation for any changes made in assignment of points and any additional information that was available after the proposed assessment.)

A dispute with the underlying property owner, the weather situation as well as economic hardships were presented by the operator as difficulties in completing the necessary material. Nevertheless, the problem was minor as the map was duplicative of what could be seen and the proposed assessment points should be reduced. The operator did show good faith in complying after issuance of the proposed assessment.
