RE: Installation of Rock Gabions in Ditch CD-8, Mountain Coal Company, C.V. Spur, ACT/007/022, Folder #2, Carbon County, Utah

SYNOPSIS

Mountain Coal Company submitted a letter on November 26, 1993 requesting approval to install 4 rock gabions in ditch CD-8. This change will be reviewed in this memo.

ANALYSIS

Three copies of Plate 3-2 were included in the submittal. No design specifications or references to designs in the MRP were provided. The operator will need to provide this information based on expected flows in this diversion.

RECOMMENDATION

I recommend that the amendment be denied until the operator provides a design for the gabions as discussed above.

Re: Installation of Rock Gabions in Ditch CD-8, Mountain Coal Company, C.V.  
Spur Coal Processing and Loadout facility, ACT/007/022-93F, Folder #3,  
Carbon County, Utah

The Division erroneously sent a letter on December 2, 1993 stating that the above-noted amendment was determined complete. Unfortunately, this letter was wrong and the amendment is not complete and must be denied. No design specification or references to designs in the MRP were provided. Information based on expected flows in this diversion must also be included. Please resubmit the amendment.

Carbon County, Utah

Dear Ms. Littig:

At the request of Mr. Malencik, Mountain Coal Co. is herein requesting approval to install 4 rock gabions in Ditch CD-8, southeast of the coal stockpile area. This addition should prevent cutting of the ditch in the upper reach, and deposition in the lower part.

I have enclosed 3 copies of the revised Plate 3-2 for insertion in the permit upon approval.

If you have any questions, or need any further information, please let me know.
