PERMIT NUMBER: ACT/007/021

DATE OF INSPECTION: February 18, 1993

(Comments are Numbered to Correspond with Topics Listed Above)

1. PERMITS, CHANGE, TRANSFER, RENEWAL, SALE

Current status and information regarding the Blazon Mine site is essentially the same as the last inspection. Refer to that complete inspection dated 9/25/92 for detailed information regarding the status of the site.

A Board response to the landowner's citizen complaint letter dated January 25, 1993 was received by the Division on February 26, 1993. This response letter indicated that no additional inspection of the mine site is warranted as no new violations of the state program were suggested in the letter.

The site is currently covered with snow with depths varying from three to five feet. Access to the site cannot be accomplished by vehicle beyond the town of Clear Creek. No indication that any equipment or access has been made to the site via the only access road to the mine.

Note - This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas and Mining.
