Re: *Sediment Disposal Amendment*  
*Savage Coal Terminal*  
*ACT/007/022*  
*Carbon County, Utah*

Dear Mr. Malencik:

Attached for your approval are 8 copies of an amendment regarding the disposal of pond sediment at the Savage Coal Terminal (formerly C.V. Spur).

The plan previously stated that all sediment pond material removed would be placed on the refuse pile. The plan has now been amended to cover the remote possibility that some of the sediment is not suitable to be disposed of onsite and may have to be taken to another approved facility for treatment or disposal.

This amendment is necessitated by a recent internal environmental audit conducted by Mountain Coal Co., in which very minor amounts (15-85 ppb) of Perchloroethylene (PCE) were found in isolated areas of the inlets of Sediment Ponds 5 and 6. In preparation for the sale of the site to Savage Industries, Inc., Mountain Coal Co. agreed to clean the contaminated material from the ponds and arrange for its disposal. Because PCE is listed waste, it could not be placed on the refuse pile or hauled to the local ECDC disposal site. Arrangements have ~~therefore been made to ship~~ the material (300 - 500 tons) to the Grassy Hill site operated by USPCI near Tooele, Utah. This site is an approved facility for disposal of hazardous materials.

Although the source of the PCE is unknown, it is suspected that it came from solvent use at the old Jensen Truck shop. This area used to drain into Ponds 5 and 6, until the shop area was officially removed from the permit and its drainage was separated from the permit drainage. Sediment from other ponds on the site did not show any such contamination; therefore, it appears to have been an isolated incident which originated off site. It is not expected that any such contamination should occur again in the future; however, since this material will be taken off-site, this amendment will cover the present situation as well as any future variations to the on-site disposal.

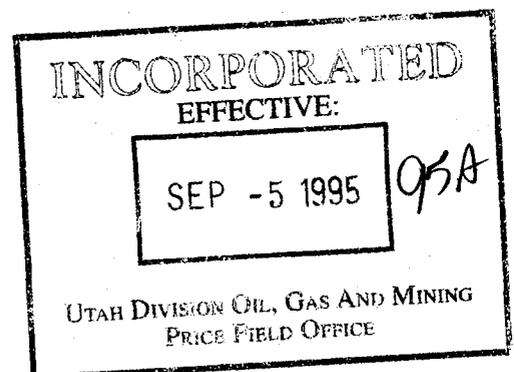

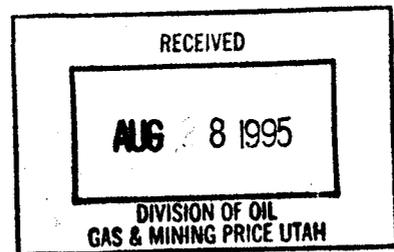

It is our hope this amendment meets with your approval. Be assured all contaminated material will be properly disposed of in an approved facility. If you have any questions, or need any further information, please let me know.

Sincerely,

Boyd Rhodes

# APPLICATION FOR PERMIT CHANGE

Title of Change: *SEDIMENT DISPOSAL AMENDMENT*

Permit Number: *ACT10071022*

Mine: *SAVAGE COAL TERMINAL*

Permittee: *SAVAGE INDUSTRIES*

Description, include reason for change and timing required to implement:

*REMOVAL OF A PORTION OF SEDIMENT TO AN APPROVED DISPOSAL SITE.*

- Yes  No 1. Change in the size of the Permit Area? \_\_\_\_\_ acres  increase  decrease.
- Yes  No 2. Change in the size of the Disturbed Area? \_\_\_\_\_ acres  increase  decrease.
- Yes  No 3. Will permit change include operations outside the Cumulative Hydrologic Impact Area?
- Yes  No 4. Will permit change include operations in hydrologic basins other than currently approved?
- Yes  No 5. Does permit change result from cancellation, reduction or increase of insurance or reclamation bond?
- Yes  No 6. Does permit change require or include public notice publication?
- Yes  No 7. Permit change as a result of a Violation? Violation # \_\_\_\_\_
- Yes  No 8. Permit change as a result of a Division Order? D.O.# \_\_\_\_\_
- Yes  No 9. Permit change as a result of other laws or regulations? Explain: *LISTED WASTE IN SEDIMENT.*
- Yes  No 10. Does permit change require or include ownership, control, right-of-entry, or compliance information?
- Yes  No 11. Does the permit change affect the surface landowner or change the post mining land use?
- Yes  No 12. Does permit change require or include collection and reporting of any baseline information?
- Yes  No 13. Could the permit change have any effect on wildlife or vegetation outside the current disturbed area?
- Yes  No 14. Does permit change require or include soil removal, storage or placement?
- Yes  No 15. Does permit change require or include vegetation monitoring, removal or revegetation activities?
- Yes  No 16. Does permit change require or include construction, modification, or removal of surface facilities?
- Yes  No 17. Does permit change require or include water monitoring, sediment or drainage control measures?
- Yes  No 18. Does permit change require or include certified designs, maps, or calculations?
- Yes  No 19. Does permit change require or include underground design or mine sequence and timing?
- Yes  No 20. Does permit change require or include subsidence control or monitoring?
- Yes  No 21. Have reclamation costs for bonding been provided or revised for any change in the reclamation plan?
- Yes  No 22. Is permit change within 100 feet of a public road or perennial stream or 500 feet of an occupied dwelling?
- Yes  No 23. Is this permit change coal exploration activity  inside  outside of the permit area?
