Re: Water Well Closure at Blazon Project
Bond Forfeiture ACT/007/021

Dear Mr. and Mrs. Otani:

Louis Amodt and Luci Malin of the Abandoned Mine Reclamation Program met with Steve Tanner on Thursday in regards to the closing of the water well at the Blazon mine property as the first part of reclamation. The Division is now in the position to close the water well located on the mine site.

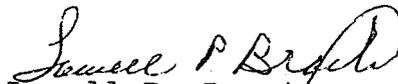

With this letter, we are giving the two week notice prior to work as stated in the letter to you from Lowell Braxton, dated March 22, 1994. This letter of notification is being sent to all land and mineral owners.

Currently we are planning to close the water well the week of July 17, 1995. The contractor is scheduled to mobilize onsite on Monday, July 17, 1995. The work is expected to take one day. The drill rig to be onsite for one night.

In a meeting last fall, Steve Tanner mentioned he would move the boulder in front of the gate. If it is inconvenient for him to move the boulder in front of the gate and give us a key to the lock we will take care of these items.

Thank you for your assistance and cooperation in the first part of reclamation of the Blazon Mine property. If you have any questions or concerns please contact me.

Sincerely,

Lowell P. Braxton
Associate Director, Mining
