The reclamation bond for this mine was forfeited on May 24, 1991 and the mine was reclaimed as of October 4, 2000. Since the Blazon Mine is considered an abandoned site, the Division of Oil, Gas and Mining proposes in lieu of the inspection frequency established in R645-400-130, that inspections be set at a frequency commensurate with the public health and safety and environmental considerations present, but in no case shall the inspection frequency be set at less than one complete inspection per calendar year. The site was last inspected in January 28, 2003, and no threats to public safety or the environment were noted.

Blazon Mine is located on:
