Re: Beaver Creek Coal Company
C.V. Spur

Dear Mr. Smith:

Enclosed please find a set of plans for the siting and drainage control for a Shop/Lab/Warehouse Building proposed to be constructed at C.V. Spur. Please note the proposed building will be placed on the fringe of the undisturbed area, and that the only drainage change required will be in the location of the diversion carrying undisturbed drainage.

I have discussed this proposal with Joe Helfrich and Tom Portal of your staff. At their suggestion, I am submitting this plan for construction approval. Of course, the M & R Plan will be modified to include this facility upon approval.

This building is scheduled to be finished in 1981, and with the construction season growing short, your early consideration of this matter will be appreciated.

Thank you for your consideration.

Respectfully,

BEAVER CREEK COAL COMPANY

Dan W. Guy, P.E.
Chief Engineer
