Mr. James W. Smith, Jr.
Coordinator, Mined Land Development
Division of Oil, Gas and Mining
Department of Natural Resources
State of Utah
1588 West North Temple
Salt Lake City, UT 84116

Dear Mr. Smith:

Please find enclosed replacement copies of Exhibit 2 to the
C. V. Spur Mining and Reclamation Plan Application.

This revision is necessary due to a remodeling project at the
preparation plant required by the addition of another circuit
to the preparation process. The addition to the existing plant
will not require activities on previously undisturbed land and,
therefore, all other portions of the permit remain unchanged.

The plant addition will involve construction of a walled enclosure
attached to the existing building. The addition will house equip-
ment for a completely wet preparation process and as such no dust
should be generated.

If you have any questions about this revision, please contact me
at 303-575-7523.

Sincerely,

Kenneth W. Wangerud
Coordinator
Permits and Compliance
