Memo to Coal File:

RE: Beaver Creek Coal Co.
C.V. Spur
ACT/007/022
Carbon County, Utah

Tom Portle and Joe Helfrich met with Dan Guy, chief mining engineer for Beaver Creek Coal Company, March 27, 1981. In reference to the Apparent Completeness Reivew of the C.V. Spur recreation plant, the following changes were proposed:

1. Sediment pond and treatment facility delineation.
2. Location of the lab building.
3. Off-site diversion of water encountered through french drain.
4. Delineation of small undisturbed areas within the permit area.

Additional changes in response to the ACR meeting held March 24, 1981, with Ken Wangarud and Dave Chenoweth are scheduled for resubmittal by approximately April 10, 1981. Final approval of the C.V. Spur submittal is slated tentatively for the end of April.
