Act 1007/022

Mr. Don Crane, Regional Director
Office of Surface Mining, Region V
Brooks Towers
1020 Fifteenth Street
Denver, Colorado 80202

Dear Don:

The enclosed letter and map concern the relocation of the lab/shop/warehouse facility on the Beaver Creek C. V. Spur site. The laboratory was proposed in the C. V. Spur loadout plan submission of November 1980. However, there was inadequate discussion of the location, operation and reclamation of the facility.

Beaver Creek Coal Company has recently proposed a new location within the permit area for the facility. The Division has reviewed it as a minor modification to the C. V. Spur submission.

Enclosed also is a review letter from the Division requesting clarification and further information on the facility proposal. When the Division receives a response which adequately addresses these concerns, an approval to construct the facility will be granted. At that time, a copy of the approval will be forwarded to your office. If you have any questions or concerns relative to this action, please call.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF MINED
LAND DEVELOPMENT
