Attention: Lynn Kunzler

DIVISION OF
OIL, GAS & MINING

Dear Lynn:

Pursuant to our conversation of August 24, 1982, I am forwarding to you a list of plant species to be seeded on a temporary basis at the Castle Valley Spur this fall. Upon completion of our conversation, it was agreed by both of us to utilize this mix and visually monitor its success during the next year or two.

The seed mix is as follows (figures proceed according to drill seed rate).

<u>Species</u>	<u>#PLS/Acre</u>
Intermediate Wheatgrass	2#
Thickspike Wheatgrass	2#
Bluebunch Wheatgrass	2#
Indian Ricegrass	1.5#
Squirreltail Bottlebrush	1.5#
Alleali Sacaton	1/3#
Galleta	3#
Mat Saltbush	3#
Desert Globemallow	1#
TOTAL	16.33#PLS

*NOTE: Should Squirreltail Bottlebrush be unavailable, no substitutes will be made. Should Mat Saltbush be unavailable, Shad-scale Saltbush, at the same rate of seeding, will be substituted.

I thank you for your expedience in this matter. Should you have any questions or comments, please call me at 637-5050.

Sincerely,

BEAVER CREEK COAL COMPANY

David R. Meyer
