Memo to Coal File:

#7  
RE: Technical Staff Tour  
Beaver Creek Coal Company  
C. V. Spur Prep. Plant  
ACT/007/022  
Carbon County, Utah

On Monday, December 13, 1982, an on-site tour of the C. V. Spur coal preparation plant was conducted. In attendance were Dave Meyers and Scott Raymond from Beaver Creek Coal Company; Ev Hooper, Pam Grubaugh-Littig, Lynn Kunzler and Rick Summers from the Division. The tour was conducted to acquaint the staff with the C. V. Spur preparation plant and to discuss a proposed raw coal storage modification. During the tour, it was determined that if Beaver Creek could provide adequate soil material that could be determined suitable through chemical and physical analysis to sustain the postmining vegetation, then the native soil need not be removed and stored.
