Carbon County, Utah

Dear (Name):

The Utah Division of Oil, Gas and Mining (Division) has completed a review of the Mining and Reclamation Plan (MRP) and amendments submitted by Beaver Creek Coal Company for the Castle Valley Spur Preparation Plant. This Division has determined the plan to be apparently complete. In compliance with Section UMC 786.11(b) and (c) of the Utah Coal Mining Reclamation Act (UMC, Section 40-10-1 et seq.), notice is hereby given to all appropriate agencies have jurisdiction over or an interest in the area of the proposed operations that a complete plan is available for public review for this proposed operation.

The C. V. Spur Prep. Plant is located approximately four miles southeast of Price, Utah.

This preparation plant was purchased from Utah Power & Light Company in November of 1977. The total surface disturbance is approximately 110 acres, with no additional surface disturbances planned. The following areas comprise the mine permit area:

Township 15 South, Range 10 East, SLBM

W1/2 SW1/2, NE1/4 SW1/4 except East 100
SE1/2 SW1/4 except East 100

The Division will now prepare a Technical Analysis (TA) to determine whether the proposed plan meets all the criteria of the Permanent Program Performance Standards according to the requirements of UCA, Section 40-10-1 et seq.
