Inspection Memo
to Coal File:

RE: Beaver Creek Coal Company
C. V. Spur Preparation Plant
ACT/007/022
Folder No. 7
Carbon County, Utah

On April 13, 1983 John Whitehead performed a partial inspection at the above noted preparation plant accompanied by Scott Raymond of BCCC. The primary purpose of the inspection was to orient this inspector to the facility as this was his first inspection there.

A straw bale dike had been positioned along the outside edge of the road above the small area exemption in accordance with a letter from Lynn Kunzler dated April 6, 1983.

The inflow to the #6 pond was noted at several gallons per minute. Mr. Raymond explained that recent emergency testing procedures had required draining the prep plant several times.
