RE: Small Area Exemption  
CV Spur  
ACT/007/022  
Carbon County, Utah

Dear Mr. Raymond:

Before the Division can approve the Small Area Exemption (SAE) requested in your December 20, 1982 letter, additional information is needed to clarify the following points:

1. Calculations relating the anticipated amount of runoff from this area during a designated precipitation event (ie. 10 year - 24 hour rainfall) should be provided to verify the minimal runoff claim.
2. The universal soil loss equation calculations for the area should also be provided. It would be helpful to provide the soil and vegetation parameters associated with these calculations.

Please submit the requested information within 30 days so that the Division may complete its review in a timely manner.

If you have any questions, please don't hesitate to call.

Sincerely,

LYNN KUNZLER  
RECLAMATION BIOLOGIST
