Inspection Memo
to Coal File:

C. V. Spur
Beaver Creek Coal Company
ACT/007/022, Folder #7
Carbon County, Utah

A partial inspection was conducted at the above mentioned mine site on May 30, 1984 by Barton Kale of the Division. The inspector was accompanied by Mary Boucek, Pam Grubaugh-Littig, John Whitehead and Tom Munson of the Division as well as Scott Raymond. The other Division personnel were on hand to view another Beaver Creek property (Southwest Lease).

At this time there were no problems evident. The last two cells of the Sediment Pond #6 are dry. The plant is still not operating and there has been no recent runoff. Some of the plant thickener water has been released into a holding pond but is contained.
