Dear Mr. Guy:

Re: Conditional Approval, MRP Amendment, Water Monitoring Plan Change,
Beaver Creek Coal Company, C. V. Spur Preparation Plant/Loadout,
ACT/007/022-86A, Folder #3, Carbon County, Utah

The Division has completed the review of your March 16, 1987 response to our February 3, 1987 deficiency letter for the MRP amendment referenced above. The response to the stipulations is acceptable and the Division is prepared to grant its final approval for this water monitoring plan change.

As a final condition to this approval, the Division requests ten (10) copies of the revised water monitoring plans which are formatted to allow direct insertion as replacement pages into the approved mining and reclamation plan. The revised plans should be dated and numbered accordingly. Please provide these copies by May 25, 1987 if possible.

Thank you for your cooperation in completeing this permitting action. As always, please call should you have any questions or concerns.

Sincerely,

D. Wayne Hedberg
Data Management Coordinator
