RE: Access/Haul Road Amendment  
 C.V. Spur Processing Facility  
 ACT/007/022 #2  
 Carbon County, Utah

Dear Mr. Smith:

Beaver Creek Coal Company is requesting approval to an amendment of the main access and haul road into the C.V. Spur Processing Facility. This change is necessitated by the reconstruction and alignment change of the County Road through the area. The new road into C.V. Spur will be constructed by the county as part of the overall road project.

The road section typical will be at least to the dimensions and standard shown in the M.R.P. The proposed new location and drainage is shown on the enclosed Plate 3-2 "Surface Facilities and Operations Plan". The proposed location is within the present "Disturbed Area", and will not result in any changes in the drainage patterns or other operations at C.V. Spur. It should also be noted that this amendment has been discussed with Mr. Bill Malencik and Ms. Pam Littig of your staff, and the field location has been observed by Ms. Littig.

I appreciate your consideration of this matter. If you have any questions, or need any further information please let me know.

Respectfully,

Dan W. Guy  
 Mgr. Permitting/Compliance
