Dear Mr. Guy:

Re: Mid-Term Review, Mountain Coal Company, C.V. Spur Processing and Loadout Facility, ACT/007/022, Folder #2, Carbon County, Utah

Pursuant to R614-303-211, the Division must review each permit in the Coal Regulatory Program during the term of the permit, not later than the middle of each permit term. The Division will now begin the mid-term review of the permit for the C.V. Spur Processing and Loadout Facility and anticipates completing this review by February, 1992. Written findings will be made by the Division and sent to you with a detailed description of all information required to remedy any inadequacies and a time frame for submittal of such information.

If you have any questions, please call me.

Sincerely,
