Re: Mid-Term Review
C.V. Spur Loadout Facility
ACT/007/022
Carbon County, Utah

Dear Ms. Littig:

Enclosed are 8 copies each of 2 proposed amendments for C.V. Spur. Following is a brief explanation of each:

- (1) Sediment Markers - This corresponds to Item 9 on the C.V. Spur Midterm Review Items. This is a proposal to place sediment markers back into the ponds in lieu of direct surveys for sediment levels;
- (2) Refuse Pile - This proposal corresponds to Item 10 on the Midterm Review Items. This is a proposed change in the wording of Section 3.2.3.3 to clarify that minor depressions may exist on the refuse area during pile construction.

These proposals are being submitted at this time to allow for their consideration during the Midterm Review. Item 8 (Proposal) on the Midterm Review Items may be submitted as a proposed amendment at a later time; however, additional data review is required prior to our suggesting any further deletion of monitoring wells.

It is our hope these proposals meet with your approval. If you have any questions, or need any further information, please let me know.

Respectfully,

A handwritten signature in cursive script, appearing to read "Dan W. Guy". The signature is written in dark ink and is positioned above the typed name.
