Mr. Dan Guy, Manager
Mountain Coal Company
P.O. Box 1378
Price, Utah 84501

Dear Mr. Guy:

Re: Amendment Required for Coal Refuse for Test Burn, C.V. Spur Coal Processing and Loadout Facility, Mountain Coal Company, ACT/007/022, Folder #2, Carbon County, Utah

It has been brought to the attention of the Division that coal refuse at the C.V. Spur Coal Processing and Loadout Facility may be used for a test burn at the Sunnyside Cogeneration Plant. In order to do this, an amendment is necessary to change the approved plan to allow for shipping of coal refuse off site for test burn purposes. This amendment should include information about records of tonnage and destination that will be maintained by Mountain Coal Company to distinguish this "test burn coal refuse shipment" from other coal shipped off site for AML fees that will be assessed for this material.

If you have any questions, please call me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Pamela Grubaugh-Littig'.

Pamela Grubaugh-Littig
Permit Supervisor
