Re: Proposed Railroad Crossing  
Ancillary Roads  
Savage Coal Terminal  
ACT/007/022  
Carbon County, Utah

Dear Mr. Malencik:

Enclosed are 4 copies of a proposed amendment to the Savage Coal Terminal M.R.P. The proposal is to construct a railroad crossing between the plant area and coal stockpile area to reduce travel distance on loaders and other equipment. It is also proposed to install an 18" cmp culvert on the north side of the railroad tracks to provide drainage. The culvert has been sized for the drainage area, and is detailed on Table 7-25 as Culvert C-24.

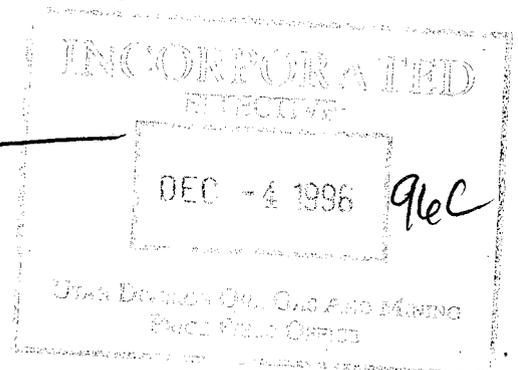

This amendment is also intended to clarify the locations of Ancillary Roads on the site. Plate 3-2 will show the proposed crossing, culverts and roads. An additional culvert (C-25) will also be added to provide access for the ancillary road near the new truck dump.

Required permit change forms are enclosed. All pages and plates are numbered, and should replace corresponding items in the M.R.P.

If you have any questions, or need any further information, please contact me or Dan Guy.

Sincerely,
