RE: Temporary Truck Dump and Stacking Conveyor Closeout, Savage Coal Terminal, Savage Industries, Inc., ACT/007/022-95C, Folder #2, Carbon County, Utah *file*

Dear Mr. Rhodes:

Appreciate your prompt action on installation and paperwork followup on the aforementioned surface facilities amendment. The amendment was approved December 22, 1995. Since you have submitted the required followup documents, we are closing our suspense file and incorporating the followup documents into the Price Field Office MRP.

The enclosed documents bear the official Division "incorporated" stamp. Copies of the documents, together with a courtesy copy of this letter, are also being sent to cooperating agencies. The documents are as follows:

- 1) Certified copy of updated surface facilities map entitled Plate 3-2.
- 2) Plates 3-2a and 3-2b showing design details of the temporary truck dump and coal stacking conveyor.

The "incorporated" stamped documents should replace the documents submitted with the amendment. These documents must be filed in the Mining and Reclamation Plan.

Sincerely,

Wm. J. Malencik

Wm. J. Malencik
Reclamation Specialist
