Subject: Savage Industries Inc

Hi Pam - we were notified a few days ago by our AML collections people that they had information indicating Savage Industries Inc had changed their name to Savage Services Corp. We called Savage and they had changed their name on 1/20/03. They faxed us the documentation supporting the name change. We have updated the AVS by ending all of the o/c under Savage Industries as of 1/20/03 and adding Savage Services Corp to the OFT by using the code NC (name change) - this leaves a link open to the new company. We then created an Entity OFT for Savage Services Corp. using all of the o/c in Savage Industries that had not ended out - we used a begin date of 1/20/03.

We also noticed that you guys have one permit issued to Savage Industries that is not expired. Based on your regulations, you may need to transfer this permit to Savage Services Corp. - I am not sure.

I will fax you a copy of the documentation to support the name change.

Also, just wanted to let you know we still haven't heard anything from your attorneys on Lodestar. We are still available to assist any way they may need us - just give us a call.

If you have any questions on the Savage Industries/Savage Services name change, please feel free to give me a call or email me. thanks
