Subject: Re: Data Upload for Savage (June 2003)

The dry sample has now been uploaded. Would you like me to delete the other point?

Thanks,
Dana

Dana:
The sample titled C-15-W by ken was not done by me. The sample that I was referring to in this original email was the dry UPDES point.

When Joe was here a few weeks ago he noticed that listed in the sample sites there are duplicates of CV-15-W; listed as CV-15-W and UPDES discharge point. They are the same point.

Sorry for the confusion,
Wende
