Inspector: Pete Hess, Environmental Scientist III

Weather: Sunny, some clouds. Warm, 40's F.

InspectionID Report Number: 827

Accepted by: whedberg
1/13/2006

Permittee: SAVAGE SERVICES CORP
Operator: SAVAGE SERVICES CORP
Site: SAVAGE COAL TERMINAL
Address: 6340 S 3000 E STE 600, SALT LAKE CITY UT 84121
County: CARBON
Permit Type: PERMANENT COAL PROGRAM
Permit Status: ACTIVE

Current Acreages

Table with 2 columns: Value, Description. Rows: 160.00 Total Permitted, 122.28 Total Disturbed, Phase I, Phase II, Phase III

Mineral Ownership

- Other (checked), Federal, State, County, Fee

Types of Operations

- Underground (checked), Surface (checked), Loadout (checked), Processing, Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The Permittee continues to meet the Special Permit Condition included as Attachment "A" of the current State permit by submitting all surface water monitoring information in an electronic form on a quarterly basis to the Division web site.

There are no compliance actions currently pending within the Savage Coal Terminal permit area.

The Permittee has received a conditional approval relative to the processing of refuse pile material off the permit area; reject from the cleaning process will be returned to the Coal Terminal for final disposal. Mr. Guy indicated this day that he is in the process of preparing the clean copies of the submittal which are needed by the Division for the incorporation/final approval process. The submittal of those clean copies to the Salt Lake Division headquarters is pending, but should occur shortly after Christmas 2005.

Inspector's Signature:

Date Thursday, December 22, 2005

Pete Hess, Environmental Scientist III
Inspector ID Number: 46

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas and Mining.

**REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS**

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
  - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
  - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Divison Orders, and amendments.

**8. Noncoal Waste**

The Permittee has cleaned up the area NE of the office building which contained numerous pieces of steel scrap. A berm has been placed along the edge of this pad to segregate the disturbed area from the undisturbed area. Also, the Permittee has cleaned up the contaminated soil which existed inside the fenced area behind the administration building.

**17. Other Transportation Facilities**

Survey stakes have been installed parallel with the primary road accessing the coal storage silo; these stakes are for a new conveyor installation.

**18. Support Facilities, Utility Installations**

Work on the new shop building is progressing; much of the support steel has been installed atop the concrete base walls.

**20. Air Quality Permit**

The Permittee's water truck was being filled during today's inspection. It is assumed that the water will be utilized for road dust suppression.
