Wende,

I have uploaded this sample into the permanent database. Please let me know if you have questions.

Thanks,

Dana Dean, P.E.

Wende,

You are right, the OK box is missing because there are errors. So the lab sampled for total parameters by mistake? I will delete the dissolved parameters and you should be able to ok it.

Dana,
I have input the data for the June 23, 2005 sampling of CV-1W for the Savage Coal Terminal. There are several errors because listed on the report are "Total" parameters instead of "Dissolved" parameters. I input the ones on the report and tried to remove the others.
I also tried to submit this report but the OK'd box is missing from my screen. Is this because there are errors?
When you get a chance could you please have a look at this.

Thanks for your help,
Wende
