Subject: Final Approval of B.T.U. Resource Recovery Plan for Refuse, Savage Services Corporation, Savage Coal Terminal, C/007/0022, Task ID #2267, Outgoing File

Dear Mr. Rhodes:

The above referenced amendment is approved. You may now proceed to blend and ship the 15,000 tons of material from the waste rock pile with coals in storage at the Savage terminal in order to meet the requirements associated with the cement plant contracts referred to in the submittal. Savage Services Corporation had permitted the use of the material in this pile for another source prior to this application. This application merely changed the point of blending and the end user location.

A stamped incorporated copy is enclosed for your copy of the Mining and Reclamation Plan. If you have any questions, please call me at (801) 538-5268. Thank you.

Sincerely,

Pamela Grubaugh-Littig  
Permit Supervisor
