Subject: Conditional Approval of B.T.U. Resource Recovery Plan for Refuse, Savage Services Corporation, Savage Coal Terminal, C/007/0022, Task ID #2360, Outgoing File

Dear Mr. Jensen:

The above-referenced amendment is conditionally approved upon receipt of three clean copies prepared for incorporation. Please submit these copies by December 14, 2005. Once we receive these copies, final approval will be granted, at which time you may proceed with your plans.

A stamped incorporated copy of the approved plan will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan.

Please be advised, that as one of the conditions for approval, it is necessary to obtain a sample of the air cleaning process reject material, and analyze that material for the parameters required in APPENDIX 3-6 of the application. It is Savage Industries responsibility to ensure that these samples are taken, the analyses performed, and that the results of the analyses are reviewed to ensure that the reject has no acid or toxic potential. These must be performed prior to any backhaul of reject material to the Savage Coal Terminal refuse disposal facility.

Please submit the reject analyses as part of the Annual Report each year for the Savage Coal Terminal.

If you have any questions, please call me at (801) 538-5268 or Peter Hess at (435) 613-1146, Ext 203.

Sincerely,

Pamela Grubaugh-Littig
Permit Supervisor
