Helper, Utah 84526

Dear Mr. Guy:

I received your letter requesting a clarification on approved staking tubes at the Savage Coal Terminal site. According to our records, a total of four stacking tubes were approved in the approved equipment list (condition 6.G) of the existing Approval Order DAQE-563-98, dated September 3, 1998. In the abstract of the approval order, there was a statement stating that the company requested to add one more staking tube to its operations, and the Division of Air Quality approved the request.

If you have any questions regarding this matter, please feel free to contact me at (801) 536-4153.

Sincerely,

Maung Maung
Environmental Engineer
